**PM addresses inaugural session of the Governors' Conference**

**National Education Policy will take India forward as per needs and aspirations of 21<sup>st</sup> century: President Kovind**

**Education policy and education system are important means of fulfilling the aspirations of the country – PM**

**With the participation of all we will push this education policy towards implementation without delay – Education Minister**

**New Delhi, 7<sup>th</sup> September 2020**

The President of India Shri Ram Nath Kovind inaugurated a virtual Conference of Governors on 'Role of National Education Policy 2020 in Transforming Higher Education' in New Delhi today. The Prime Minister Shri Narendra Modi addressed the inaugural session of the conference, which was attended by Union Education Minister Shri Ramesh Pokhriyal 'Nishank', MoS for Education Shri Sanjay Dhotre, Governors, Lieutenant Governors/ Administrators of states and also some State Chief Ministers and Education Ministers .

Addressing the Conference, the President of India, Shri Ram Nath Kovind said that National Education Policy (NEP) will take the country, especially the youth forward in accordance with the needs and aspirations of the twenty-first century. Congratulating the Prime Minister for his visionary leadership and inspiring role in shaping this historical document, he also appreciated Dr. Kasturirangan and Ministers as well as the officials of Education Ministry for giving shape to National Education Policy through an elaborate process which took into consideration more than two lakh suggestions received from 2.5 lakh gram panchayats, more than 12,500 local bodies and about 675 districts. If changes are effectively brought about, India will emerge as an education superpower, he added.

Elaborating on the NEP, the President said that Governors being Chancellors of State Universities have a crucial role to play in the implementation of NEP. There are some 400

State Universities with about 40,000 colleges affiliated to them, hence it was imperative to establish coordination and dialogue with these universities which could be done by Governors who are also the Chancellors, the President said.

President Kovind said that education is the most effective way for social justice and hence the National Education Policy calls for an investment of about 6 per cent of GDP jointly by the Centre and the States. He said the NEP emphasizes on strengthening of public educational institutions for a vibrant democratic society and at the same time inculcate respect among students for Fundamental Rights, Duties, Constitutional values and patriotism.

Speaking on the occasion, the Prime Minister said the education policy and education system are important means of fulfilling the aspirations of the country.

The Prime Minister said that though the responsibility of education lies with the Central, State and Local level Governments, their interference in the policy should be minimal. He said the relevance and effectiveness of the education policy will increase when more and more teachers, parents and students get associated with it. He added that the National Education Policy 2020 was drafted after receiving feedback from millions of people across the country, and from those related to the education sector, which is why there is a sense of ownership and an all round acceptance among people about this policy.

The Prime Minister further said that the NEP is not only directed at reforming the education system but also at giving a new direction to the social and economic fabric of 21st century India. He said the policy aims at making India self-reliant or AatmaNirbhar, by making our youth future ready in a rapidly changing world and equipping them with the knowledge and skills as per the requirements of the future.

He added that the National Education Policy focuses on 'Learning' rather than 'Studying' and goes beyond 'Curriculum' to emphasize 'Critical Thinking'. He said there is more emphasis is given on 'Passion', 'Practicality' and 'Performance' than on 'Process'.

He said that the policy aims at making India a Knowledge Economy in the 21st century. He added that it also allows for offshore campuses of top international universities in India which will address the issue of Brain Drain.
