PREFACE

Examination is an important tool of assessing the progress made by students in their academic journey. Analyzing examination results statistically helps to understand the academic input by the teachers and the quantum of its receptivity by the students. It is also useful in order to estimate the availability of manpower and for assessing the demand for higher education in the country as well as catering to the needs of different organizations, educational planners and research scholars. Hence, the Ministry of Human Resource Development lays great emphasis in analyzing the board examination results.

This publication contains important statistics of examination results of the High School and Higher Secondary/Intermediate/Pre-University Examinations conducted by the various Boards in the country. I take this opportunity to place on record the co-operation received from the offices of State and Central Boards of Secondary, Higher Secondary and Intermediate/Pre-University Education, National Institute of Open Schooling, State Open Schools who have supplied the required data in time for bringing out this publication. I also express my appreciation of the work done by the Project Staff of the Statistics Bureau in bringing out this publication.

It is our constant endeavour to improve the coverage of this publication as well as its presentation based on the feedback from its users. Suggestions for improving the publication are always welcome and may be sent to us.

RESULTS OF HIGH SCHOOL & HIGHER SECONDARY EXAMINATIONS

(An Overview)

ANOVERVIEW

(a) INTRODUCTION

 $\mathcal{F}_{ ext{xamination means the test of a student's knowledge in prescribed subjects. Various}$

Examination Boards have been established in the country for holding and conducting an examination at the end of Class X, the Secondary School stage and XII, the Senior Secondary School stage. These boards also prescribe conditions of examinations including course of studies for such examination.

Normally every year these Boards conduct Annual Examination in the month of February/March. Some of the Boards also conduct Supplementary Examination in the month of August/September on the basis of course/syllabus as prescribed by the Government.

The Examination results have assumed high importance for enabling students to enter job markets as well as for pursuing higher education. The result at the end of class XII is all the more significant as this leads students to enter tertiary level of education, including academic and professional courses of the university level.

It is of vital importance to compile the results of Secondary and Senior Secondary examinations conducted by various boards. Properly and systematically analyzed data on Examination results not only measure the efficacy of the educational system, it also indicates the flow of students from school level to higher education and job market.

The Results of Secondary and Higher Secondary/Intermediate Examinations conducted by Boards across the country have been analyzed in this publication. The data contained in this publication have been collected from the Boards in the country.

Open School Examination Boards

There were 14 open Boards across the country in the year 2009 and out of them only 5 conducted Class XII examinations and 6 conducted Class X examinations separately. Rest of the Boards did not conduct separate examination and their students appeared through the respective State Boards. In the table the name of the Open Boards with details are listed.

Unlike regular Boards, examination is conducted twice in a year during the month of March-May and September-November in Open Boards. In Open Schools, system of examination is different from other State and Central Boards. They provide a flexible scheme of examination by giving an opportunity to appear in one, two or more subjects

and credits are accumulated till the certification criteria is fulfilled. A candidate can avail number of chances as prescribed by the board to appear in public examinations spread over a period of more than one year unlike a time span of one year for other boards. There is no bifurcation of regular and private students and also no system of supplementary examination in Open Boards. It is, not reasonable to compare the passpercentage of Open Board system with that of other State/ Central Boards as the number of appearing students includes all the students appearing in the examination whether appearing for one or more subjects, while number of passed students includes only those students who get certification i.e. passed in all the subjects. Keeping this in view, pass percentages have not been calculated for Open Boards.

Students' Flow

Students' flow has been described here as its movement from Class X to passing out of Class XII. In the year 2009, the students, which have appeared and passed out from Class XII, were from among those students who were enrolled in Class XII in the year 2008. The students' enrolment has been taken from the publication, "Statistics on School Education". The students on roll as on 30th September of the year are taken as Students' enrolment during the year. The students, who have taken admission in Class XI in 2007, were from among the students who passed Class X examination in the year 2007. Excluding the drop-out, these students might have continued study in Class XII in the year 2008 and have been counted in enrolment in Class XII in the year2008. Thus the chart depicts the rate of decline in movement of students towards higher education. The five stages, Number of students Passed in High School Examination, Enrolled in Class XI, Enrolled in Class XII, Appeared in Higher Secondary Examination and Passed in Higher Secondary Examination are shown in

the chart given below. In Chart 8, three lines depict the movement during years 2005-2007, 2006-2008 and 2007-2009. In Chart 9, two lines depict the movement of boys and girls during 2007-2009.

There are significant numbers of students, who do not go to formal schooling, but attempt to qualify by appearing in Class XII examination as is evident from the fact that the number of students appearing in Class XII in 2009 was more than the number of students passing out from Class X in 2007. Please see Statement -3.

Chart 10 - Board-wise pass percentage in 2009

Structure of the Tables

For two Central Boards and 31 State Boards, number of students appeared, number of students passed and the pass percentage are given in the Table – 1 and 2 for Regular and Private Students respectively. For Scheduled Caste these details are given in Table 4 and 5 and for Scheduled Tribe Students in Table 7 and 8. In Tables 3, 6 and 9, number of students appeared, number of students passed and the pass percentage for total of Regular and Private Students for All Categories, SC and ST students respectively are given. These figures are given for boys and girls separately. For Annual and Supplementary Examinations, number of students passed and the pass percentage are given separately.

Percentage-wise examination results has also been compiled and shown in Table 10, 11 and 12. Number of students have been categorised into three classes on the basis of percentages of marks scored in the examination. The classes are "60% & above", "50% to below 60%" and "Below 50%". For some Examination Boards, distribution of students in these classes is not available as mentioned in the table. In case of J.K State Board of School Education these classes corresponds to "60% & above", "48% to below 60%" and "Below 45%" and in case of Assam Higher Secondary Education Council, West Bengal Council of Higher Education, Kolkata and Tripura Board of Secondary Education these classes corresponds to "60% & above", "45% to below 60%" and "Below 45%". It may be seen that percentages of students scoring more than 60% of marks of the total students passed varies from about 3% to 86% in different boards.

Data for Open School Examination Boards have been tabulated separately in Table 13, 14, 15 and 16, where number of students appeared, number of students passed, pass percentages and Percentage-wise examination results are given for open boards.

Performance of SC and ST students

Out of total students appeared through regular boards, 13.9 % (Boys-14.2% and Girls-13.5%) of students were from SC category, whereas out of total students passed only 12.8 % (Boys-13.0% and Girls-12.5%) of students were from SC category.
